VASIKARAN K

Full Stack Developer | React.js • TypeScript • Python (FastAPI) • AWS
+91 8870647969 | vasikarankalaiyarasan@gmail.com | linkedin.com/in/vasikaran-k | github.com/vasikaran-code

PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience building production web applications using React.js, TypeScript, and Python (FastAPI). Architected event-driven serverless systems on AWS handling 1K+ records daily, with measurable gains of 30–40% in UI engagement and DB query speed. Domain experience across pharma (CLM), customer support, and ed-tech.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL, HTML5, CSS3
Frontend: React.js, Redux, React Hooks, Material UI, Bootstrap, Responsive Design
Backend: Python (FastAPI), Java (Spring Core), Hibernate, GraphQL (Strawberry), REST APIs
Databases: PostgreSQL, MySQL, DynamoDB
Cloud & DevOps: AWS (Lambda, API Gateway, DynamoDB, S3, CloudWatch, Amplify), Git, GitHub Actions, CI/CD
Tools: VS Code, Postman, Eclipse J2EE, Jira, Claude (AI-assisted development)

EXPERIENCE

Inforios Software Technologies *Sept 2024 – Present*
Full Stack Developer Tamil Nadu, India

- Engineered 15+ REST and GraphQL endpoints in Python (FastAPI) and Strawberry GraphQL, supporting core workflows in customer support and pharma CLM platforms in production.
- Reduced API response latency by ~35% through query optimization, response caching, and async I/O patterns in FastAPI services backed by PostgreSQL and DynamoDB.
- Built a reusable React.js + TypeScript component library with Redux-Saga state management, accelerating feature delivery across two product lines.
- Owned end-to-end deployment of serverless modules on AWS (Lambda, API Gateway, DynamoDB, CloudWatch) with CI/CD pipelines for safe rollouts.

Inforios Software Technologies *March 2024 – Sept 2024*
Software Developer Trainee Tamil Nadu, India

- Built an end-to-end Event Booking Application using Nest.js, React.js, and PostgreSQL with JWT auth, role-based access, and concurrent-safe booking logic; designed normalized schemas with optimized SQL reducing report generation to sub-second.

Shiash Info Solutions Pvt. Ltd. Feb 2023 – April 2023
Java Developer Intern Tamil Nadu, India

- Contributed to 3+ internal Java projects applying OOP, collections, and core data structures, and resolved 10+ assigned tickets covering bug fixes and small feature additions.

PROJECTS

Pharmaceutical CLM (Closed Loop Marketing) Platform *React.ts • FastAPI • PostgreSQL*

- Designed and developed a Closed Loop Marketing platform used by medical reps to deliver content to physicians, building responsive React + TypeScript interfaces that improved user engagement by ~30%.
- Implemented FastAPI backend services for secure content delivery and analytics tracking, using JWT-based auth and role-scoped endpoints to ensure data integrity across user tiers.
- Optimized PostgreSQL queries via composite indexing and query restructuring, improving data-retrieval speed by ~40% on a workload of 1M+ analytics records ingested daily.

GI Marketplace & Product Management Platform React.ts React Native • FastAPI • GraphQL • AWS Lambda • DynamoDB • Stripe

- Architected and developed a multi-role GI marketplace platform from scratch with Admin, Merchant, and Customer applications, using FastAPI, GraphQL, AWS Lambda, API Gateway, and DynamoDB to manage product, seller, order, and customer workflows.
- Developed core marketplace modules including merchant onboarding and approval, product management, location-based discovery, GI-tagged products, wishlist, cart, orders, sales and performance analytics, and Stripe payments across responsive React and React Native applications.

Natyakala – Student Registration Platform *Nest.js • React.js • MongoDB*

- Built a student registration system using Nest.js and React.js with multi-step form validation and MongoDB storage; reduced initial load time by ~20% via React route code-splitting and indexed Mongo collections.

EDUCATION & CERTIFICATIONS

Mahendra Engineering College, Namakkal, Tamil Nadu *Aug 2019 – May 2023*
Bachelor of Engineering, Electronics and Communication Engineering

- Java Full-Stack Developer Certification — JSpiders, Bangalore (Jun 2023 – Jan 2024): Core Java, Hibernate, Spring, SQL, and front-end frameworks.
