

VASIKARAN K

Junior Software Developer at Inforios Software Technologies

☎ 8870647969 ✉ vasikarankalaiyaran@gmail.com  <https://www.linkedin.com/in/vasikaran-k>

Professional Summary

Junior Software Developer with 2 years of hands-on experience in React.js, TypeScript, Python (FastAPI) specializing in building scalable web applications and APIs. Proficient in developing modern user interfaces, RESTful and GraphQL services, and working with cloud technologies such as AWS Lambda and DynamoDB. A fast learner and proactive team player, committed to delivering clean, reliable, and high-quality software solutions.

Skills

Frontend : React.js, Typescript, Redux-Saga, HTML/CSS, Bootstrap, Material UI.

Backend : Java (Spring Core), Hibernate, Python (FastAPI), GraphQL (Strawberry)

Databases : MySQL, PostgreSQL, DynamoDB.

Cloud & DevOps : AWS (Amplify, Lambda, DynamoDB, API Gateway, S3, CloudWatch), Deployment & CI/CD

Tools : VS Code, Eclipse J2EE, Postman, GitHub

Experience

Junior Software Developer

Inforios Software Technologies

Sept, 2024 – Present

- Completed intensive training in React.js, and Python, gaining proficiency in web development and database management.
- Developed and maintained APIs for the organization, ensuring optimal performance and security.
- Collaborated with cross-functional teams to improve software efficiency and user experience.
- Participated in code reviews, debugging, and optimizing application performance.

Trainee

Inforios Software Technologies

March – Sept, 2024

- Gained practical experience in SQL, HTML, CSS, and JavaScript through comprehensive training.
- Built an Event Booking Application using Nest.js, React.js, REST API, and PostgreSQL, implementing user event booking, organization details, and robust booking/management features with high performance and data integrity.

Intern

Shiash Info Solutions Private Limited

Feb – April, 2023

- **Learned** and **applied** core **Java programming** principles, focusing on object-oriented design, data structures, and algorithms.
- **Contributed** to multiple hands-on Java projects, directly improving my problem-solving and software development lifecycle skills

Projects

Customer Support & Product Management Platform | React.ts, Python REST API (FastAPI), AWS Lambda, DynamoDB

- **Architected** and **built** a multi-business customer support system from concept to production, utilizing an **event-driven**, serverless backend with **FastAPI**, AWS Lambda, API Gateway, and DynamoDB for high performance.
- **Engineered** a responsive **React/TypeScript UI** with seamless workflow and real-time updates, significantly enhancing agent efficiency.
- Developed key modules for service, product, team, and ticket management, improving overall system stability and feature delivery.

Pharmaceutical (CLM) Application | React.ts, Python Fast API, PostgreSQL

- **Spearheaded** the development of a Closed Loop Marketing (CLM) platform, designing responsive **React/TypeScript** interfaces that improved user engagement by approximately **30%** .
- **Implemented** robust **FastAPI** backend services for secure content delivery and analytics tracking, ensuring high data integrity and synchronization.
- **Optimized** PostgreSQL database queries, which improved data retrieval speed by **40%**, handling over 1 million records daily.

Student Registration Application (Natyakala) | Nest.js, React.js, REST API, ZapsCloud / Zapsdatabase (MongoDB).

- **Built** a complete student registration system using **Nest.js** and **React.js**, integrating **secure validation workflows** for efficient student onboarding .
- **Integrated** MongoDB for seamless data storage, reducing initial application load times by **20%** and ensuring fast query performance.
- **Collaborated** with cross-functional teams to implement robust booking and management features, enhancing data integrity and user experience

Education

Mahendra Engineering College	Aug, 2019 - May 2023
Bachelor of Engineering in Electronics and Communication Engineering, Namakkal, TamilNadu.	

Certification

• Java-Full-Stack Developer - Jspiders, Bangalore.	Jun, 2023 - Jan 2024
--	-----------------------------
